

Snow Plow Efforts

The Township was prepared for the snow we received on Saturday, February 6. We estimated receiving 23” of snow beginning on Friday night through Saturday afternoon. Several workers for the Township worked 19 straight hours trying to open every road and make it passable for the motoring public. We continued working on Sunday to open the roads further and allowing the residents to access other roads.

These are trying times and I know people have complained about snow plow drivers not lifting the plow for driveway access. It is not practical for our drivers to lift and lower the plow at every driveway to avoid piling snow on your driveway. At this point we are attempting to widen every road and cul-de-sac so that when the next storm arrives we have a place to push the new snow.

We aim to please and are working some extreme hours in order to make West Pikeland a safer place to live. If you have a comment or complaint regarding the quality of our snow plow service please call me at the Township Office at 610.827.7660 or send an email at sross@westpikeland.com.
